2009

Mira Burri. Cross-border data flows have become essential to the contemporary digital economy. They underlie any digital trade transaction and call for international cooperation. The chapter seeks to trace developments in preferential trade agreements (PTAs) with regard to the telecommunications and the media services sectors by looking at a few recent and advanced trade deals of the United States and the European Union respectively. Mira Burri. Domain of Expertise: Cultural policy, Digital, Trade and Culture, Intellectual Property Rights. Nationality: Bulgaria. Mira Burri is a senior lecturer and managing director for internationalization at the University of Lucerne’s Faculty of Law. Prior to joining the University of Lucerne, Mira was a senior fellow at the University of Bern, where she led projects on trade and culture and on digital technologies and trade governance as part of the Swiss National Centre of Competence in Research (NCCR): Trade Regulation. Mira Burri is a senior lecturer in the Faculty of Law at the University of Lucerne, Switzerland. She teaches international intellectual property, media, internet and trade law. Mira has co-edited the publications Trade Governance in the Digital Age (Cambridge University Press, 2012) and Big Data and Global Trade Law (Cambridge University Press, 2020). She is the author of Public Service Broadcasting 3.0: Legal Design for the Digital Present (Routledge, 2015). From this expert. Mira Burri, Bern University, Law Faculty, Faculty Member. Studies Law and Society, Internet Governance, and Cyberlaw. The development of new digital technologies has resulted in significant transformations in daily life, from the arrival of online shopping to more fundamental changes in the ways we work and communicate. Many of these changes raise more. Mira Burri is senior lecturer and managing director for internationalisation at the Faculty of Law of the University of Lucerne since April 2016. She is the co-editor of the publications Free Trade versus Cultural Diversity (Schulthess 2004); Digital Rights Management: The End of Collecting Societies? (Stämpfli et al.)
