Invisible Heart: Economics and Family Values

By Nancy Folbre

There has been much talk about family values in recent years, but little examination of the economic forces that are exploding family life and limiting the caregiving that families can provide. As Folbre points out in her provocative and insightful new book, every society must confront the problem of balancing self-interested pursuits with care for others—including children, the elderly, and the infirm. Historically, most societies enjoyed an increased supply of care by maintaining strict limits on women's freedom. But as these limits happily and inevitably give way, there are many consequences for those who still need care. Using the image of the invisible heart to evoke the forces of compassion that must temper the forces of self-interest, Folbre argues that if we don't establish a new set of rules defining our mutual responsibilities for caregiving, the penalties suffered by the needy—your very families—will increase. Intensified economic competition may drive altruism and families out of business. A leading feminist economist, Nancy Folbre writes in a lively, personal style—Molly Ivins cheek-to-cheek with John Kenneth Galbraith—and develops a distinctive approach to the economics of care. Unlike others who praise family values,...

Framing her argument by vivid autobiographical vignettes, Nancy Folbre has delivered a blueprint for a society founded on principles of love, obligation, and reciprocity. Families in which men and women share caring labor equally are the basic decision units in the blueprint for a new social order. A steeply progressive income tax channels resources for child and elder care from the market economy to the household sector. The wages of child and elder care workers relative to corporate managers are significantly higher than they are in today’s economy. She is the author of The Invisible Heart: Economics and Family Values and Saving State U: Why We Must Fix Public Higher Education; a co-author, with Jonathan Teller-Elsberg, James Heintz, and the Center for Popular Economics, of Field Guide to the U.S. Economy; and a co-author, with Randy Albelda, of The War on the Poor: A Defense Manual, all published. This book, The Invisible Heart, is a tremendous contribution to the field of economics. Folbre completely changes the lenses in our glasses, allowing us to see for the first time how the capitalist system is rooted in a non-capitalist entity--the family--without which capitalism would crumble.
The Invisible Heart Economics and Family Values By NANCY FOLBRE The New Press. Read the Review. The milk of human kindness. But choice is a funny thing, affected by both moral values and by social pressures. Often what we choose depends on what we think other people will choose. It’s harder to stay honest if we see other people cheating. Economists Nancy Folbre and Jennifer Roback Morse stand far apart on the political spectrum, but their recent books (Folbre’s The Invisible Heart: Economics and Family Values and Morse’s Love and Economics: Why the Laissez-Faire Family Doesn’t Work) offer complementary insights into economics, the family and love. On a superficial reading, they line up on opposite sides of the “culture wars” that divide American intellectuals, but a closer reading reveals that their differences are more apparent than real.
