The book London Voices: London Lives: Notes from a Working Capital, published in summer 2007, has two affinities: written by Michael Young’s successor at the Institute of Community Studies, it appeared almost exactly fifty years after Family and Kinship in East London, and it presents the edited raw material of the interviews used in writing the book Working Capital, published in 2002. This paper, based on the 2007 Michael Young Lecture, contains reflections on the use of interview material as sociological evidence, and presents some major themes of the new book. The old working-class community London Voices, London Lives addresses a question of great current importance for urban policy: what kind of a place is London in the 21st century, and how does it differ significantly from other parts of urban Britain? It addresses these questions in a unique way: over one hundred ordinary Londoners provide their answers in their own voices. Product Identifiers.
