
Language, Ethnicity and the State Volume 1: Minority Languages In The European Union. Edited by Camille C. O'Reilly. About the book. Developments in the European Union over the last decade have been largely positive from the perspective of stateless and minority ethnic groups and the survival and prosperity of minority languages. This comprehensive selection of sociologically and ethnographically oriented work enables the reader to compare developments in different ethno-linguistic revival movements within the European Union. The contributions also explore the impact of EU policy and discourse. Start by marking “Language, Ethnicity and the State, Volume 1: Minority Languages in the European Union” as Want to Read: Want to Read saving… Want to Read. Such an interesting subject, such a tedious book! It reads like a thesis, has citations very few lines. It is superficial and repetitive at the same time. Don't bother reading this and just search on Quora your curiosities about the subject. Here, I'll save you the read: Language plays an important role in national identity (ethnicity), thus, it has been used to legitimise nationalist movements (states). Developments in the European Union over the last decade have been largely positive from the perspective of stateless and minority ethnic groups and the survival and prosperity of minority languages. This selection of sociologically and ethnographically oriented work enables the reader to compare. The central question addressed by the authors contributing to this volume is how minority languages and minority language communities can survive in circumstances with traditional communities dispersing and new types of superdiverse ecologically emerging. This network was founded in 2007 as a body uniting scholars specializing in questions relating to minority languages and ethnicity in the European Union, the Russian Federation and other Eurasian countries.
