JPGN is the only journal dedicated to pediatric gastroenterology, hepatology, and nutrition. It has an Impact Factor of 2.937. Potential reviewers include fellows in Pediatric GI, Hepatology, and Nutrition, practicing pediatric gastroenterologists, and post docs and scientists/investigators in related fields.

Lecture Notes is a comprehensive yet easy-to-read overview of luminal gastroenterology and hepatology. It covers the epidemiology, causes, clinical features, investigation, treatment, and prognosis of all the main gut and liver conditions, making it ideal for both exam preparation and fact finding. The book closes with a chapter on pediatric endoscopy.

Features of the second edition: Thirteen new chapters present current developments in the specialty, including evidence-based approaches, natural orifice transluminal endoscopic surgery (NOTES) and hybrid procedures, endoscopic therapy in obesity, and therapeutic endosonography. The scientific journal Pediatric Gastroenterology, Hepatology and Nutrition is included in the Scopus database. The main subject areas of published articles are Gastroenterology, Hepatology, Pediatrics, Perinatology, and Child Health.

We offer making basic requirements to academic papers compliance test using "Paper quality checking" service. The experienced editors of ORES, who have published papers, were him who called Stefano asking him if he would consider a second edition of the book "Textbook of Pediatric Gastroenterology and Nutrition", edited in 2004 by Taylor & Francis, but expanding it to include hepatology. Stefano was reluctant (it takes a huge commitment to edit such a book!), but David had a way of convincing that was hard to resist, and when he brought into the picture Anil as a prospective editor for the liver part, resisting was futile! The chapters are clinically oriented and aim at making easier the decision-making process for trainees in pediatrics and pediatric gastroenterology, pediatricians and nurse practitioners. Consultant, Division of Gastroenterology and Hepatology, Mayo Clinic, Jacksonville and physiology.
